RE: Reminder - Optional College Application Workshops

The following are dates of our “College Application Workshops.” Sessions are not mandatory, but offered as a way to help you get started and get a jump on the college application process before the fall semester starts. We work on any part of the application: filling out the Common Application, the personal statement, your supplements, or short answer questions. If you have something written, send it to us beforehand and we will have it ready with our comments. We plan to hold the sessions in the library computer lab.
